

## GENERAL PURPOSE AUGERS

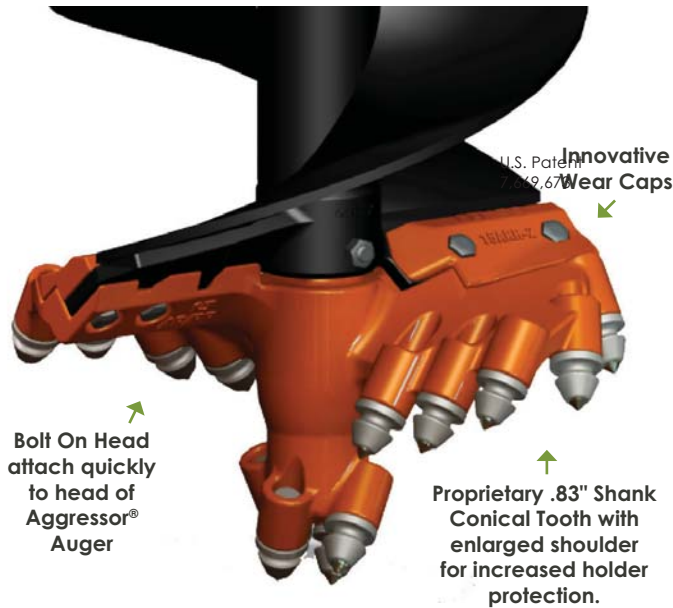

# BoRH<sup>®</sup> for AGGRESSOR

Use with Revolution Series Drives: DS-2 and DS-3

The Bolt on Rock Head received its patent in June 2010.

# BoRH<sup>®</sup>

Bolt On Head attach quickly to head of Aggressor<sup>®</sup> Auger

Proprietary .83" Shank Conical Tooth with enlarged shoulder for increased holder protection.

### Easy as 1-2-3!

Use the C123 Puller for easy removal of the P21 RR tooth.

**P21 RR**

**LBS** | .56

ITEM	DIA	No. Teeth	LBS.	PN
6-BORH	6"	8	24	137991
9-BORH	9"	10	36	137992
12-BORH	12"	12	43	137993
15-BORH	15"	14	47	137994
18-BORH	18"	16	62	137995
24-BORH	24"	20	79	137996

### CONNECTIONS

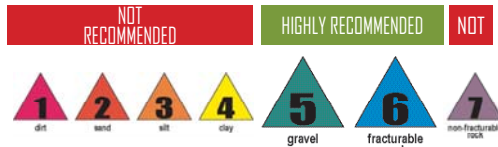

### AUGER DIAMETERS

6" 9" 12" 15" 18" 24"

### CUT DIAMETER

Cut diameter is 1 1/2" larger than auger diameter.

### DRILLING SOIL CONDITIONS:

Pengo's patented BORH (Bolt on Rock Head) provides the ultimate solution for all your drilling applications. Designed to convert a standard Aggressor<sup>®</sup> Dirt Auger into a rock auger, the BORH<sup>®</sup> eliminates the need for an additional and dedicated Rock Auger. The BORH<sup>®</sup> kit contains our boring head, pilot bit, wear caps, bullet-style carbide teeth and all hardware needed to complete the installation. Featuring innovative wear caps and enlarged shoulders on the teeth for increased wear, the BORH<sup>®</sup> system provides the ultimate solution across a wide variety of soil conditions.
